

TCM Forklift Part

TCM Forklift Parts - Forklift trucks are an important player in the material handling field of every international trade. Transporting industrial goods happens each and every day on our busy world. First innovated as industrial vehicles during the 1930s in America, forklifts gained popularity after World War II during the 1940s. Becoming a reliable and efficient means to material handling solutions, the need and practicality of these equipment spread internationally.

First founded as Toyo Carrier Manufacturing Company Limited, in the year 1949, the business was later renamed Toyo Umpanki Co. before becoming known as the TCM Corporation. Established by Mr. N. Niwa manufactured Japan's very first forklift. Over the years, TCM lift trucks have become a worldwide leader in forklift manufacturing and have built a solid reputation in the trade. TCM began building lift truck manufacturing locations outside of Japan during the 1980s and is now engaged in forklift manufacturer at three foreign factories in Europe, China and the United States.

With over fifty years of accumulated technology and expertise, TCM has been proudly making several models of industrial trucks, making their models recognizable all around the globe. With a strong and energetic staff, TCM has been able to constantly work towards becoming a future leading material handling business.
